Our STORY

We treat our clients like family!

Hello!

We wanted to share with you the reasoning behind why we do what we do. In every aspect of our lives, we have been supported by others. Our friendships and relationships with other industry related professionals, trades people, and small business owners have played an instrumental role in assisting us get to where we are today. We are incredibly grateful and humbled to be a part of these individuals' lives as well and in return, we wanted to create something that potentially will make a difference for them as business owners.

This 'Referral Directory' booklet is a Thank You to the people who do great work for not only ourselves, but also for our clients. We hope this compilation of locally owned businesses will be a quick resource for you if you're in a bind or if you need a bigger project tackled. From finance to photography, roofers to residential cleaning companies, you can find a variety of local businesses that can assist in all facets of life. Every business or company noted in this booklet is either an acquaintance, past client of ours, or a service that we have personally used and can vouch for as they attest to trustworthiness, reliability, and excellent quality of work in their industry.

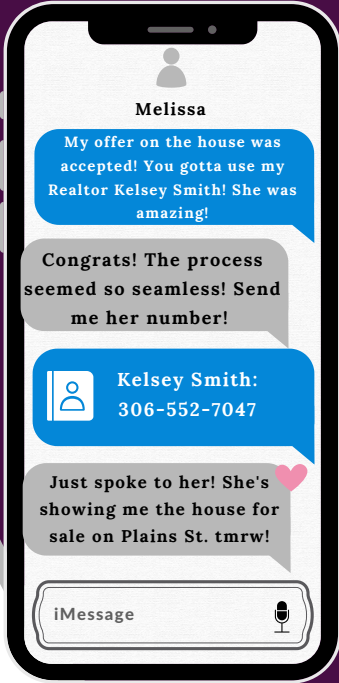

We hope to make updates to this booklet on an annual basis. We believe that our friends and clients are great advocates; they have great relationships with people we may not know so please reach out to us and provide your input! We are aware there are some industry gaps and that is because we don't list businesses we haven't worked with. We believe the businesses listed here provide quality service and are true professionals.

Thank you for being with us!
